

I am sending this message, as I understand there are Bills created in Congress that are trying to stop XM Radio from providing XM Instant Traffic and Weather. We are a trucking company and have purchased several of these radios so our drivers are informed of immediate change in weather situations. WE LIKE THESE RADIOS, AND IT HELPS MAKE IT SAFER FOR ALL CONCERNED DRIVING ON THE ROAD. The drivers can not get the truck radios to work in all areas of the 48 states. We pay for the monthly service of XM Radio, and it truly helps the drivers. I do not feel it should be up to the National Association of Broadcasters to say what we are permitted to hear. I strongly urge the FCC to REJECT the NAB PETITION 04-160 and to support XM Radio ability to provide the kind of programs and services we deserve. We pay for this, and we should be allowed our freedom of the first amendment. THANK YOU,
